about us...

Mod Forge Private Ltd.(MFPL) started in a modest scale way back in the year 1988 under the leadership of our founder Mr.Om Prakash Modi. Since then the company has grown from a trading concern to a multi-plant, multi-product company.

Our vision is to provide high quality steel products at the best prices to our customers and to be a one stop solution to all OEM's for their entire steel requirement.

MFPL has the most modern infrastructure, communication facility, latest equipments and dedicated team of executives, engineers and workmen who have contributed to the organizations growth in a profound manner and consistently ensure quality, customer requirement and satisfaction

MFPL has been accredited with TS 16949 as well as ISO 9001-2000 certification for Quality Management System.

Product at a glance

- Bright Steel Bars from 6mm to 80mm as per customer requirements in Peeled or Cold Drawn Condition - with or without Grinding.
- Closed Die Forgings up to 40 kgs in weight.
- Cold Forged Components
- Rings upto 300mm OD through Ring Rolling.
- Bolts – Max 50mm dia & 1.5 meters long
- Square and U - Bolts as per Customers drawings.
- Precision Machined Components through CNC & VMC machines.
- Heat Treatment Facilities – Normalising, Annealing, ISO Annealing, Hardening & Tempering, Induction Hardening, Carburising...etc.
- Cut to Length Bright Bars and Black bars (Tolerance +-0.1mm)

Bright Bars

Being one of the largest Bright Steel Bars manufactures in South India, MFPL converts Bright Bars by Drawing, Peeling and centerless Grinding. We are also equipped to supply bright bars in heat treated condition.

The entire manufacturing process starting from raw material is subjected to stringent & continuous quality controls for Chemical, Mechanical and other Metallurgical properties. Our Final inspection conducted on all finished bars ensures customer quality standards and requirements.

We also can supply bars cut-to-length for hassle free production & easy accountability.

Having a strong relationship with all reputed steel mills, make almost all raw materials available for every application.

Forgings

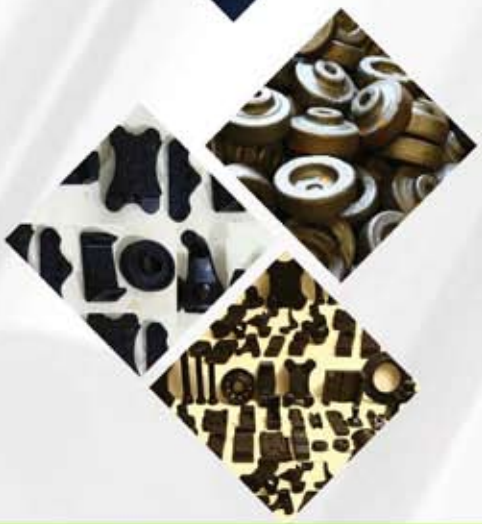

MFPL is equipped with a integrated forge shop consisting of a 2500T forging press, various drop hammers, Screw Presses & a Ring Rolling line. Its accompanied with all necessary equipments like Induction Heating, Trimming Presses etc...

Our Die Shop/Tool Room is capable of Manufacturing all the required Dies and Tools. Based on the Product, the Forged component can undergo further in house processes such as Heat Treatment, Shot Blasting. Magna flux for Crack detection, Drilling & Grinding etc.

We can forge products upto 40kgs in weight depending on the shape & size.

We have recently also ventured into the production of cold forged components.

Machined Components

Mod forge offer's the advantage of end to end solution right from Bright Bars, Forging (Hot & Cold) to fully finished Machined and Heat treated components.

With over 50 CNC & VMC machines, we also have other facilities like Thread Rolling, Centreless Grinding, Horizontal & Vertical Milling, Facing & Centering, Drilling, Tapping, Automats, Pipe and Rod Bending, Polygon Turning & various SPM's to meet customer requirements & volume.

Our Major Products are Shackle Pins, King Pins, Gudgeon Pin, Studs, Washers, Grease Nipples, Gear Blanks, Rings, Forged Pipe Fittings, Shafts and Other Precised Machined Components as per Customer Requirements.

We also offer components with variety of Surface quality like Zinc Phosphating, Zinc Plating, Blackening, Shot blasting, Painting, Hard Chrome Plating and Dacromet Coating.

U Bolts & Special Fasteners

We are proud to be the largest manufactures of U-Bolts in South India. With two dedicated lines specialised only to make U Bolts, we have a present capacity of 1.2 million bolts per annum.

We can manufacture Round, Square, Semi Round, Forged and other custom built U-Bolts.

U-Bolts can also be heat treated if required.. Supply condition can be in Oiled, Painted, Plated, Phosphated or as per customer requirement.

We also manufacture wide range of Special High Tensile Bolts, Washers, Studs, Foundation Bolts, Threaded Rods and other allied items conforming to rigid international standards such as DIN ASTIM BS, ANSI, IS and ISO etc.

Heat Treatment

We can supply Bright bars, Forgings, Machined components & Fasteners in heat-treated condition.

Our inhouse heat treatment plant equipped with the following type of furnaces -

- Continues Pusher Type Heat treatment furnace with SCADA with a capacity of 400Kgs/hour. Quenching can be done in Water, Oil & Polymer as per product requirement. Also includes iso-thermal chamber.
- Pit Type Gas Carburising furnace for Case Carburising & Hardening with a capicity of 1Ton.
- Induction hardening Machine of 150Kva & 80 Kva with both vertical and horizondal movement.
- Bogie Hearth Furnace for Steel Bars having a capacity of 10ton/load. The Furnace can be used for Stress Relieving, Soft Annealing & Spheroidizing Annealing.

Our team of metallurgists having more than 25 years in the field of metallurgical R&D. The supervisory staffs have metallurgical background with appropriate technical qualifications. All these will ensure customer gets his material as per his requirement.

Lab

We follow a comprehensive methodology to carry out Chemical, Mechanical and Metallographic tests in our Laboratory. Our laboratory is fully equipped with advanced instrumentation to check Yield & Tensile, Elongation, Chemistry, Hardness, Micro Structure ect.

Our currently installed lab facilities are -

- Spectrometer
- Magnetic Particle Inspection for Crack Detection under UV Light
- Universal Testing Machine
- Brinell Hardness Testing Machine
- Rockwell Hardness Tester
- Metallurgical Microscope with Image Analizer.
- Micro Hardness Tester
- Impact Testing Machine
- Jominy Test Apparatus

Why Mod Forge?

QUICK RESPONSE

- Any Enquiry made will be Quoted within a Week
- Sample within 4 to 6 weeks
- Hold adequate raw material stock
- One Stop Solution for all Steel Requirements

$ SAVINGS

- Labour cost is Very Competitive
- Material at International Price
- Competitive Machining Cost and High Availability of Skills Set
- Supply wide range of products helping customers to reduce Vendor Base
- Self Captive Generation of Power for Uninterrupted Production

TIME LINESS

- CAD I CAM System for Tooling / Product Development
- Prompt Delivery
- TEAM Process

Quality

MFPL has been accredited with TS 16949 as well as ISO 9001-2000 certification for Quality Management System.

Quality Assurance at MFPL starts with basic understanding of the Customers Requirement and continues till the customer is completely satisfied with the delivery of Products and Services. Quality Control procedures are well defined and thoroughly implemented.

Finished products must pass through a rigorous checks in the Q-Gate before Despatch. The Q-Gate team is treated as "Mod Forge's Internal Customer" as they inspect Materials from the Customer's Perspective.

POLICY

Streamlined Procedure to Prevent Defects, Rather than Defect Detection. Committed to Strive for Customer Delight through Cost Effective Quality Products. Training & Motivation of our Employees to Services our Customers with full Effectiveness. Ensuring Consistency in Quality and Delivery.
